# UNVEIL THE MAGIC OF CORFU

## CORFU'S MAJESTIC TOWN

A Unesco World Heritage Site, the majestic town of Corfu is a splendour of cobblestoned streets and world-famous museums. Relics from a remarkable history of Venetian, French and British rule unfurl at every corner as you stroll past the Palace of St. Michael and St. Georgiou, the Liston Arcade, the Kapodistrias family mansion and more.

## CORFU'S ICONIC FORTRESSES

Blend old and new with a trip to Corfu's two ancient fortresses. Built in the 13th century, the Old Fort (Palaio Frourio) is an incredible sight, featuring the British-built church of St. George. Then, towering above the northwest border of the capital is the 16th-century Neo Frourio (New Fort), an architectural masterpiece constructed by the Venetians.

## KANONI AND MOUSE ISLAND

Visit two of the most famous landmarks of Corfu - the diminutive islands of Pontikonisi (Mouse Island) and the islet of Vlacherna. Pontikonisi is just large enough to hold the impressive Pantokrator monastery. Nestled beside it is the famous islet Vlacherna, with its 17th-century monastery dedicated to the Virgin Mary. It is connected to the mainland by a narrow causeway.

## ACHILLION PALACE

The island's imperial past is one of the reasons it enjoys its reputation as one of Greece's most glamorous destinations. This is why Empress Elizabeth of Austria-Hungary, the legendary Sissi, chose Corfu to build her spectacularly opulent palace. This elegant Pompeian-style building also has beautiful gardens where visitors can marvel at the famous statue of Dying Achilles.
